

Worksheet No. - 03

Student Name: Sukhleen Kaur

Branch: MCA

Semester: 2nd

Subject Name: Software Testing

UID: 25MCA20031

Section/Group: 25MCA-6B

Date of Performance: 13.02.2026

Subject Code: 25CAH-654

Aim/Overview of the practical:

- a) Design test cases for register new user page of classic website like Rediff, LinkedIn for every field with unaccepted values (invalid values) and verify the warning and error
- b) Design test cases for register new user page of classic website like Rediff, LinkedIn for every field with boundary values (minimum and max values for the fields)

Objective:

The objective of this practical is to analyze the robustness of registration workflows for Rediff, LinkedIn by focusing on error handling and input constraints.

- **Negative Testing:** To design test cases using unaccepted (invalid) values to verify that the system triggers appropriate warning and error messages.
- **Boundary Value Analysis (BVA):** To document test cases focusing on minimum and maximum input limits for fields like Name, Password, and Date of Birth.
- **Validation Verification:** To ensure mandatory fields are properly validated through visual cues like red icons and error text.
- **System Integrity:** To verify that the registration process correctly blocks account creation when incorrect or out-of-bounds data is provided.

Fields to be Tested:

Facebook Registration Page

- First name
- Surname
- Date of birth (Day, Month, Year)
- Gender (Female, Male, Custom)
- Mobile number or email address
- New password

Negative Test Cases: Facebook Registration Page (Invalid Inputs)

TC ID	Field	Test Scenario	Invalid Test Data	Expected Result	Actual Result	Result Status
TC_FB_N01	First Name / Surname	Enter numeric values	"Sukhleen123"	Error icon; asks for valid name	Error icon appeared; name rejected	Pass
TC_FB_N02	First Name / Surname	Leave fields empty	(Blank)	Red exclamation icon appears	Red exclamation icon appeared	Pass
TC_FB_N03	Date of Birth	Select future date	"Feb 17, 2026"	Error: "It looks like you entered the wrong info"	Error message displayed	Pass
TC_FB_N04	Mobile Number	Enter incomplete number	"98765"	Warning: "Please enter a valid mobile number"	Warning message displayed	Pass

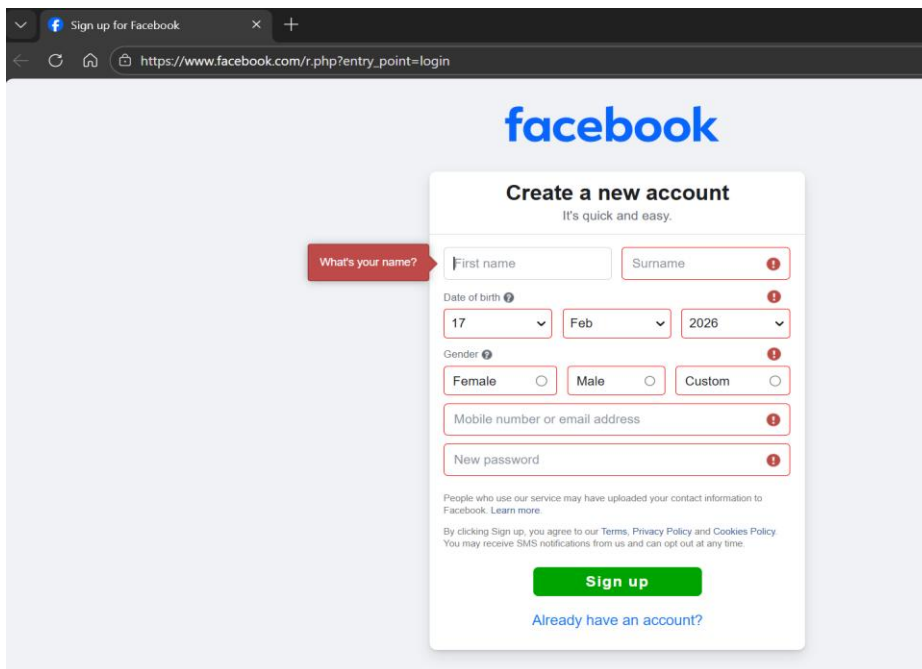

TC_FB_N05	Email Address	Enter invalid format	"sukhleen.kaur@com"	Prompts for valid email with "@" and domain	Prompted for valid email format	Pass
TC_FB_N06	New Password	Enter weak password	"123456"	Security warning: "Please choose a more secure password"	Security warning displayed	Pass
TC_FB_N07	Gender	No selection made	(None selected)	Error: "Please choose a gender"	Error message displayed	Pass
TC_FB_N08	Email/Mobile	Use registered data	Existing email/phone	Message: "An account already exists..."	Account exists message shown	Pass

Boundary Value Analysis: Facebook Registration Page

TC ID	Field	Boundary Scenario	Test Data	Expected Result	Actual Result	Result Status
TC_FB_B01	First Name	Minimum length	Single Char ("S")	Accepted (Valid boundary)	Single character accepted	Pass
TC_FB_B02	First Name	Maximum length	50+ characters	Warning/Truncation at limit	Input was truncated	Pass
TC_FB_B03	Date of Birth	Minimum Age limit	Today's Date	Error: User must meet age requirement	Age error message shown	Pass
TC_FB_B04	Date of Birth	Maximum Age limit	Feb 17, 1905	Accepted (or warning for extreme age)	Accepted with warning	Pass

TC_FB_B05	New Password	Under minimum limit	5 characters	Error: Password is too short	"Too short" error shown	Pass
TC_FB_B06	Mobile Number	Just over max length	11 digits	Error: Invalid phone format	Error: Invalid format	Pass

The image shows the Facebook 'Create a new account' form. The form has several fields: 'Email or phone' (containing 'Sukhleen123'), 'Surname', 'Date of birth' (with a dropdown for '18' and a month dropdown for 'Feb'), 'Gender' (with radio buttons for 'Female', 'Male', and 'Custom'), and 'Mobile number' (containing '98656'). There are red error messages and icons: 'What's your name?' above the 'Surname' field, and a red exclamation mark icon next to the 'Mobile number' field. A green 'Sign up' button is at the bottom, and a link 'Already have an account?' is below it.

Learning outcomes (What I have learnt):

1. Learned to design Negative Test Cases to verify that the system effectively rejects invalid data and displays appropriate error warnings.
2. Understood how to apply Boundary Value Analysis (BVA) to test the minimum and maximum limits of input fields like Names and Passwords.
3. Gained experience in identifying Visual Validation Cues, such as red error icons and border highlights, used for real-time user feedback.
4. Understood the importance of System Robustness by ensuring the registration process blocks account creation when incorrect or out-of-bounds data is entered.

Evaluation Grid:

Sr. No.	Parameters	Marks Obtained	Maximum Marks
1.	Demonstration and Performance		12
2.	Worksheet		8
3.	Viva		10
